

## English

### Poetry

The children will learn about lots of different types of poems including:

Acrostic  
Rhyming  
Shape poems.

We are then going to write our own version of the above poems linked to our topic of flowers and insects.

## Art/ D.T

This term we are going to look at Sunflowers by Van Gogh and Butterflies by Escher. Then we are going to create our own piece of art work linking to flowers and insects using the same techniques as they do.

## PE

Now it is the summer term we are going to be learning to play team games including rounders, cricket and football.

# Flowers and Insects

## Summer Term 2016

IJD and IRB

## Maths

Our focus this half term is addition and subtraction word problems, multiplication and division.

## Geography

We are going to investigate how honey gets from bees to our supermarket. Also, if this journey is the same in different countries.

## Computing

This term the children will be learning to control a character to perform simple tasks. They will begin to write their own instructions or algorithms for the characters. Once they have mastered this they will move onto debugging and solving errors in instructions.

## Science

We will be studying the different flowers, parts of trees, deciduous and evergreen trees and lots of insects. We are going to carry out investigations to find out what plants need to live as well as how water is transported through a plant.

## Music

We are going to listen to 'Flight of the Bumblebee' then create our own simple beat and rhythms to represent different insects.

## PSHE
